Brothers & Sisters in Christ

June 16, 2023

It is a good day here in Dexter, Maine. We have some rain with cloudy skies. We need the rain. I know other parts of the country are wishing for rain. I would ship some your way if it were possible. The Lord has been blessing our Wednesday night service with more children attending. These young people were invited by the children already attending. These children have come a long way in understanding the Word to invite their friends. They also get excited when their friends come to church, and so do the adults.

We are planning for our sending church, Nevill's Chapel, to come July 22-30. We will have activities for the kids in the community of Dover-Foxcroft and Dexter. We will be in each town for two days. We pray for God to send us kids so that we can demonstrate the love of God to them.

We have prayed for God to send youth workers to Dexter, Maine. I ask you to pray that God will work in people's hearts to come to the Northeast and help build a needed church in Dexter. This need is of grave concern to me. There are multiple avenues to reach the youth of our community. If you or anyone you know have a burden and a heart for kids, please give them this information.

Thank you for your prayers, cards, encouraging emails, and financial support. They are a blessing to me and the work.

Please remember the above prayer requests and the work to carry out the commission. Pray for me to have the discernment for the benefit of the work.

In Christ

George Dever
