Wow! What a busy summer. Before the national meeting in Orlando, the Antioch members had been praying for God's provisions to finish the sanctuary's needed upgrades. The church had already been blessed with 100 chairs and had the sanctuary painted. All that was left to accomplish was the laying of the carpet. It took two years to complete these upgrades, but we were patiently waiting on the Lord and His timing.

All these upgrades would not have happened without the prayerful financial support of the Lord's churches, youth groups, vacation Bible schools, individuals, and our sending church, Nevill's Chapel, support.

**After**

In July, we attended the Northeast Landmark Associational Meeting held in Rome, New York. We had a blessed time visiting with old friends and making new ones. Mohawk Missionary Baptist Church will always be a special group of people to me. Mohawk was the church I was pastor of before I moved to Maine. Please remember the Northeast in your prayers. We need more churches that preach the truth.

In August, we had the privilege of Brandon and Diana Rutherford and their two children with Cameron, a youth worker visiting with us and building skate ramps to reach the kids in the community. During the festival, we set the ramps in front of the church house. Setting up the ramps in front of the church allowed for opportunities to talk about the Lord and introduce folks to skating boarding.

We have been setting up the ramps at a park in Dexter. We have had kids bring their boards, scooters, and bikes to ride the ramps. We have had a family come out about every time we set the ramps up. Please pray that we can be the witness they need to lead them to Christ. Please pray with us to find a permanent indoor place to set up the ramps.

Also, in August, our pastor and his wife, Shawn and Rachel Findley, visited us and brought a gift, a van. This van is a blessing due to having one of our vans stolen and eventually having to sell for scrap. We are blessed with a sending church that sees the need and responds to it.
